Action taken report [2019-2020]

1. Online Feedback System has been introduced.
2. Student seminar and workshops have been started in full swing.
3. Teaching faculties and non-teaching staff members both took the initiative to prepare AQAR III properly. This venture signifies the decentralized method of execution of official works.
4. NSS unit of the college worked rigorously at the time of flood emergency and sudden pandemic situation.
5. Teachers incorporated ICT method in direct teaching as well as the blended teaching. Various online applications for online teaching and e-contents have been introduced to the students, which thoroughly helped the students specially in pandemic time.
6. Rural background and sometimes, the 'first-generation-learner' type hesitation usually keep our students in their shell. But, in this academic year, the continuous monitoring and encouragement of the teachers helped to break these shells. They performed with flying colours in inter college and intra college competitions in different fields.
